Food: What Goes in Your Basket

Dear Retailer,

Please consider stocking the Zaytoun Palestinian range so I can buy it from your shop in future. Not only do Zaytoun products taste great, they also make a big difference to the people who make them by hand in the face of conflict. The range includes the world’s first Fairtrade organic olive oil and olives, alongside the zingy za’atar herb mix, juicy Medjoul dates, sweet almonds, nutty hand-rolled sun-dried couscous and succulent sun-dried tomatoes.

Zaytoun’s range of products is available to purchase via wholesalers such as:
